

## Production & Technical Support

- PCB Manufacturing Company
- Challenging and Rewarding
- Brisbane Northside Location

An excellent opportunity for a competent individual to join our successful specialised PCB manufacturing company, located in Lawnton, (Strathpine area - approximately 25 minutes north of Brisbane CBD).

This position requires a person who has come from a manufacturing environment and has the ability to comprehend and understand our manufacturing processes in order to provide supervision, guidance and support for a small, well established production team.

You will have a "can do attitude" and possess excellent troubleshooting and problem solving abilities.

You must definitely pay attention to detail and have very thorough and methodical work techniques.

This is a Full-Time position and an immediate start and attractive package is available for the right person.

Applications close 5pm, Friday 2nd December, 2005
